Section II
Narrative

INTRODUCTION:

The City of Summersville was founded in 1824. The city was named after Lewis Summers, a local judge who introduced the bill to create Nicholas County. The City of Summersville is the county seat and was the home to both Union and Confederate encampments during the Civil War. The city was mostly burned down by Confederate spy Nancy Hart during the war and was not rebuilt until 1884. In 1914, Nicholas County High School was established in the downtown area known today as "Old Main". The year 1960 was a big turn for the City of Summersville with the construction beginning on the dam, which would be later dedicated by President Lyndon B. Johnson in 1966.

Moving forward many years, Summersville has developed itself to serve as a multi-county hub. The upgrade of US Rt 19 from a two-lane road to a four-lane highway has proven to be essential to the city's economy. Our population can be misleading by the number itself as to what the City of Summersville has to offer (2020 census 3,121). The City of Summersville has just south of five hundred hotel beds, food service industry mixing locally owned cuisine with national chains, retail including old fashioned hardware, boutiques, quilt shop and a variety of national box stores. The city owned hospital is operated by WVU Medicine. Currently under construction is a new state of the art ninety bed nursing home. This is a public/private partnership, as fifty of the beds are owned by the City of Summersville.

Summersville is the owner/operator of the regional water and sewer utilities, as well as the hydro plant located at the Summersville Dam.

As a small Class III City, one can easily surmise that the City of Summersville is a small city with big city opportunity. Nestled in the majestic mountains of West Virginia, being the new gateway to the New River Gorge National Park, we highlight our outdoor adventure capitalizing on tourism. Summersville Lake is the biggest body of water in the State of West Virginia. The lake and its landscape, provides for world-class boating, kayaking, rock climbing, hiking, swimming & fishing.

The City of Summersville currently has 30 full-time employees, 17 full-time police officers and a volunteer fire department that averages 500 calls a year. We as a city, anticipate a 20% - 25% increase in visitation throughout the area putting a higher demand on our current work force and emergency services.

Issue 1: Municipal Sales and Use Tax

Category - Tax

Specific Barrier

West Virginia State Code § 8-13-5, § 8-13C-4(a), § 8-13C-4(b).

Specific Problems created by law

WV Code § 8-13-5 sets forth standards by which municipalities can apply a Business and Occupation Tax ("B&O") on all businesses operating within the corporate limits of the municipality but prohibits municipalities from charging a tax rate higher than the maximum rates imposed by the state. The State Legislature adopted the rates, classifications, and exemptions governing the application and collection of B&O taxes decades ago. The rates, tax classifications, rules governing the administration of the municipal business and occupation tax, have not been updated to reflect the modern economy. Further, recent legislative amendments to the B&O tax through the adoption of House Bill 4567 (Regular Session 2022) has decreased the City's tax base, making it more challenging to support essential municipal operations along with our vision for growth.

WV Code § 8-13C-4(a) permits municipalities to charge a 1% sales and use tax only if the municipality's pension fund is underfunded. The City of Summersville does not have a pension plan outside of the state's retirement plan for public employees.

WV Code § 8-13C-4(b) permits municipalities to charge a 1% sales and use tax if they repeal their B&O Tax. The revenue generated by a 1% sales tax will recover the lost revenue created by House Bill 4567 and create the additional revenue needed for our city's future comprehensive planning, allowing us to compete in the current economic environment.

Proposed Solution

With the authority pursuant to West Virginia Code § 8-1-5a, the City of Summersville seeks to enact an ordinance that imposes a 1% municipal sales and use tax that would be administered, collected and enforced by the State Tax Commissioner and conform with the requirements of West Virginia Code § 11-10-11c and the requirements of the Streamlined Sales and Use Tax Administration Act as codified in West Virginia Code § 11-15B-1 et seq. As allowed by WV State Code, the City of Summersville seeks to enact a municipal sales and use tax while reducing its B&O tax to benefit retail business owners.

It is important to know the City of Summersville for decades has been very pro-business by charging approximately fifty percent of the allowable rate in most B&O tax categories (see chart below). This highlights our competitiveness in the region along with proof to business owners that the city will only tax what is needed to sustain the levels of expected services.

Class	Business Classification	Current Summersville B&O Rate	Maximum Allowable B&O Rate
9	Selling Tangible Property - Retailers	.250 %	.500 %
17	Contracting Service of Calling and all Other	1.000 %	2.000%
19	Business	.525 %	1.000 %
20	Rents, Royalties, Fees or Otherwise	.525 %	1.000 %
22	Banking	.525 %	1.000 %

The City specifically proposes to reduce its B&O tax rate in the retail classification. The current rate of tax for retail is 0.25%. The City plans to reduce it by half, and the new rate of tax will be 0.125%. Under this plan, the City proposes to reduce B&O tax rates for an approximate reduction of \$447,000.00 annually to business owners.

In today's current economic environment, it is increasingly difficult to recruit businesses owners and developers to the municipality under a traditional B&O tax structure. Moving to a consumer sales and use tax, while lowering the B&O tax within various strategic business classifications like the retail classification, will encourage more developers and businesses to be a part of the City so that they can receive the advantages of municipal services.

The City of Summersville provides essential police protection in corporate boundaries and fire protection has a call area extending beyond city limits along with regular mutual aid to the entire county. As a small city with medium sized city budget and economics, we maintain all the standard administrative services expected of modern-day government. With aging infrastructure, we strive to prepare for our future growth along with the increased demand on our city provided services.

Moreover, because of the City's proximity to outdoor recreation including camping, hiking, biking, rafting, boating, and fishing, among others, we have seen an increased interest in people and businesses wanting to reside and locate in Summersville. The City anticipates the need for additional infrastructure development with expanded recreational opportunities. And, with increased tourism and business supporting that industry, there is a corresponding need for improved emergency services and infrastructure.

Along with maintaining our current portfolio, the City of Summersville has the current slate of projects that will be supported by the 1% additional tax: (~\$1.2 million)

1. 125.5 acre recreational facility. This facility will include 20 miles of mountain biking, hiking, and walking trails, as well as soccer, softball, and baseball facilities, and a playground for all children including those with disabilities. The facility will appeal to the sports enthusiasts and those looking for outdoor adventure while visiting the New River National Park region. Not to mention the long overdue modern-day recreational facility for our locals.
2. Visitors Center. Capturing all the traffic entering and leaving the newly designated national park. This visitors center will not only highlight the New River Gorge National Park, but all the amenities offered by our county. I.e., the Summersville Lake, fishing, boating, kayaking, rock climbing, biking, hiking, and the beautiful Cranberry Glades.
3. Sidewalks/gateways connecting our community. We have current sidewalk projects creating accessibility and mobility from our downtown to our commercial shopping district. The goal is to continue to build out our sidewalk system creating a gateway to our shopping district and new recreational facility. This effort also highlights healthy lifestyles.
4. Increase funding for emergency services. This effort will first focus on retention for both police and firefighters. The current environment with law enforcement finds more officers leaving the profession every day. We need to not only equip them with the best equipment and personal protection but compensate them for the inherit risk of the job. The challenge with maintaining a volunteer fire department is the commitment of time and the out-of-pocket expenses to fulfill one's volunteer duty. The City of Summersville's volunteer fire department answers over 500 annual calls. Along with maintaining the best equipment, there is a strong consideration to add a paid driver system to our volunteer department.

The City of Summersville's history of excellent fiscal management will utilize additional revenue to responsibly grow, maintain, and sustain our infrastructural and economic future.

Issue 2: "On The Spot" Citations
Category – Administrative

The City of Summersville desires to clean up areas that have become unsightly due to owner's neglect in removing vegetation and other debris. Specifically, the City of Summersville seeks the authority for its code enforcement officer, building officer, and/or city's police department to cite property owners "on the spot" for violations of City ordinances concerning property maintenance, safety, and health hazards. Presently, City code enforcement officials are unable to issue citations "on the spot" for external sanitation violations and common nuisances, but rather are required to send preliminary notices and provide an opportunity to respond, which automatically increases costs to the City and delays resolution of the issue. This requires additional manpower and the lack of immediate citation power results in decreased compliance by property owners.

Specific Legal Barrier

W.Va. Code 8-12-16 allows municipalities to adopt ordinances regulating repair, closing, demolition, etc. of dwellings or buildings unfit for human habitation. Additionally, municipalities may adopt ordinances requiring the owner of any such dwelling or building to pay for the costs of repairs, alterations, improvements, demolition, etc. W.Va. Code 8-12-5(23) further vests municipalities with the authority to, by ordinance or resolution, provide for the elimination of hazards to public health and safety and abate or cause to be abated anything which a majority of the governing body finds to be a public nuisance, but does not provide authority for granting citation powers to code enforcement officials.

In fact, from W. Va. Code 8-12-16, in pertinent parts, the language restricts enforcement agents to the powers granted to civil process servers such that all orders issued by the enforcement agency shall be served in accordance with the law of this state concerning the service of process in civil actions, and, be posted in a conspicuous place on the premises affected by the complaint or order: Provided, That no ordinance may be adopted without providing for the right to apply to the circuit court for a temporary injunction restraining the enforcement agency pending final disposition of the cause.

Specific Problem Caused by Law

The result of the above code language is that, before citing property owners for property maintenance and related nuisance violations (e.g., sanitation issues, garbage buildup, graffiti, unmaintained lawns, unsafe or broken sidewalks), building and zoning inspectors must follow an onerous process of first posting public notice 10 days prior (warnings) and then applying for and receiving approval from the city's municipal court before a citation is issued. This process is inefficient, costly, and leads to an extended delay between the identification of a public nuisance and compliance from the property owner. In fact, because this process is so time-consuming and injurious to the apparent authority of the town's enforcement agents, non-compliance by the property owner is the more likely outcome.

Proposed Solution

Summersville seeks authority to enact an ordinance providing its code enforcement officers the authority to issue "on the spot" citations for certain violations. This citation power will extend to sanitation, drainage, sidewalks in disrepair, high weeds, grass, or both, graffiti, exterior garbage accumulation, and open storage in residential districts.

These citations may be issued to the owner, lessee, sub-lessee, tenant, occupant, or agent or manager thereof, presently having control over the property in question, and an opportunity to respond will be afforded to the cited party by contesting the citation in municipal court. The citation will be administered

substantially similar to how traffic citations are administered and are subject to appeal to the Circuit Court of Nicholas County.

Other municipalities already accepted in the "Home Rule" program have adopted Ordinances authorizing "on the spot" citations and have reported the success of this enforcement tool. Summersville intends to follow the models implemented by other participating Home Rule Municipalities.

RE: City of Summersville, West Virginia
Municipal Home Rule Application and Written Plan

Mr. Chairman and Members of the Board:

We have acted as counsel to the City of Summersville (the "City") in connection with its application and proposed written plan to the West Virginia Municipal Home Rule Board (hereinafter referred to as the "Application"). For the purposes of the opinions contained in this letter, we have examined West Virginia Code §8-1-5a as amended, as well as the Application provided to us by the City. As to any facts relevant to our opinion which we did not independently establish, we have relied upon factual representations contained within the Application, and any documentation submitted contemporaneously therewith.

We find that the Application does not include any proposals that are prohibited by West Virginia Code §8-1-5a(i). Further, we find that the Application's proposal regarding taxation complies with the relevant provisions of West Virginia Code §8-1-5a(i)(14), and the City shall use the services of the State Tax Commissioner to administer, enforce, and collect the tax required by the provisions of West Virginia Code §11-15-1 et seq., §11-15A-1 et seq., and §11-15B-1 et seq. and all applicable provisions of the Streamlined Sales and Use Tax Agreement.

Finally, as evidenced by the documentation enclosed with the Application, the City made available a copy of its proposed Application and Home Rule Written Plan for public viewing and published thirty days advance notice of a public hearing on the Application, conducted such a public hearing, and adopted an ordinance authorizing the City to submit the Application. Moreover, the Mayor has certified herewith that the City is current in payment of all state taxes and fees to the State of West Virginia.

Based upon the foregoing, we opine that the City of Summersville's Application does not violate the provisions of the West Virginia Code §8-1-5a, as amended. This opinion is solely for the benefit of the West Virginia Municipal Home Rule Board in connection with the Application of the City of Summersville to the permanent Municipal Home Rule Program and without our written consent, this opinion letter may not be used or relied upon by any other person for any other purpose whatsoever.

Sincerely,

White Law Offices, PLLC

To the Members of the Home Rule Board,

Please use this as confirmation that the City of Summersville, West Virginia, submitted a draft municipal sales and use tax to the West Virginia Tax Department (*See*, Exhibit 1). The Tax Department has acknowledged receipt of the draft ordinance and it is currently under review.

The City will fully comply with the provisions of the West Virginia Code pertaining to municipal sales and use tax ordinance adoption as well as any applicable rules and regulations governing municipal sales and use tax. Because the City intends to proceed under its home rule plan as presented herein, the City must also reduce its B&O tax in the retail classification before imposing sales and use taxes. The City will comply with the Tax Department's Legal Division requirement for written confirmation of the reduction as well as submit a copy of the passed ordinance and a copy of the Municipal Sales and Use Tax Check List at least 180 days before the taxes are imposed. Furthermore, the City has provided the Tax Account Administration Division a complete boundaries database and map at least 180 days before the taxes are imposed.

§ 1. City Council Findings.

(a) The Municipal Home Rule Board on _____, 2022, approved the home rule plan submitted by the City of Summersville, West Virginia (hereinafter "City"), thereby allowing the City to adopt a municipal sales and service tax and a municipal use tax pursuant to W. Va. Code § 8-1-5a without the limiting restrictions in W. Va. Code § 8-13C-1 *et seq.* In accordance with its home rule plan, the City Council hereby finds and declares that the adoption by this City for its municipal sales and service tax and its municipal use tax

provisions of the Code of West Virginia, 1931, as amended, relating to imposition, administration, collection and enforcement of the State consumers sales and service tax codified in W. Va.
